Re: Authorization Status of Cerex Product Vendors in China

---

Dear Concerned Parties,

It has come to our attention that several companies within territorial China are approaching potential customers within China and presenting themselves as authorized distributors of Cerex products. To protect the integrity of information supplied to end users and potential end users of Cerex manufactured products, please be advised that effective January 1, 2021, Crowcon Detection Instruments is the exclusive authorized Cerex vendor partner within China. For all product exports by Cerex to China, only purchase orders issued to Cerex by Crowcon Detection Instruments will be accepted. Purchase orders presented to Cerex by entities other than Crowcon Detection Instruments and which require the export of products to China will be declined by Cerex. In such case Cerex will kindly request the purchase order issuer present the purchase order to Crowcon Detection Instruments at:

Crowcon Detection Instruments Ltd (Beijing)  
Unit 316, Area 1, Tower B, Chuangxin Building  
Hongda North Road, Beijing Economic Technological Development Area  
Beijing, China 100176  
Tel +86 10 6787 0335

Please contact Cerex directly if any questions regarding vendor status or vendor authorization arise. For all other product related inquiries please contact Crowcon Detection Instruments.

Thank you for your consideration in this matter.

Thomas C. Wisniewski, President,
